

## Become a horse whisperer for the day

Bid on joining Lynn Scott and her brumbies for the experience of a life time.

Do you or your child love horses but never had the chance to work closely and in a safe environment with horses?

Now's your chance.

Bid on a training day with horse whisper Lynn and her three Guy Fawkes National Park brumbies. You will work with the brumbies as they play football, fetch the ball, count to five, and if by magic follow at your side with no lead rope.

The brumbies you will meet are now all very tame and gentle and regularly work with children.

Dorado, Sakima and Sali love life on our farm and don't miss the wild where they went hungry and were chased by brumby runners.

It is an exhilaration to be with a horse who once ran wild in our national parks and it is a rare chance for you or your child to live the dream so many kids have: taming a wild horse.

On the day you and your family can explore our working farm, meet our new born calves, feed the chooks, collect wild flowers and you will join us for a farm lunch.

What a great day so bid now for a great cause that needs your support.
